Capacity building programme on soft skills for stakeholders and SMEs

Within the framework of the ADRIONWIND project, ARTI is organising a **Capacity Building Programme (CBP)** addressed to SMEs and stakeholders operating in or connected to the offshore wind sector. These are complemented by a **regional customisation component**, allowing each project partner to adapt the programme to the specific needs, challenges and opportunities of its territorial context.

In Puglia, ARTI intends to develop this component through a **co-designed and peer-to-peer approach**, directly involving regional and national stakeholders in the definition and delivery of the programme. Building on the needs and priorities identified during the **ARTI Focus Group** held on 24 February 2026, as well as on the exchanges with stakeholders participating in the co-design process, the programme will combine soft skills with concrete issues related to the development of offshore wind in Italy and Puglia.

Stakeholders are therefore invited not only as participants, but also as **contributors and knowledge holders**, sharing expertise, experiences, practices and perspectives with the other members of the offshore wind ecosystem.

The programme is addressed to **SMEs and key stakeholders of the offshore wind value chain**, including companies, industry associations, clusters, coastal communities and fisheries representatives, public and port authorities, and research, innovation and training organisations.

The customised pathway aims to connect the programme's three core soft-skill areas with **concrete challenges related to offshore wind development in Puglia**.

PROGRAMME | Wednesday, 28 October 2026 | 9:30 – 14:00

Auditorium CTE Calliope | Ex Barraccamenti Cattolica | Via Federico di Palma, Taranto, Italy

Start	Duration	Content
9:30		*Get together and registration - Welcome coffee*
10:00	15'	**Environmental Impact of Offshore Wind Farms** *Giulia **Lucia**, UNIBA/CONISMA*
10:15	15'	**Puglia at the Centre of the Mediterranean Sea: The Key Role of Floating Offshore Wind** *Silvio **Maselli**, Gruppo Hope*
10:30	15'	**From Offshore Projects to Local Value: Ports, Logistics and Maritime Services as Drivers of Employment and Territorial Development** *Viviana **Prencipe**, Galli & Figlio*
10:45	15'	**Offshore Wind in the Mediterranean: An Italian Case Study** *Alessandro **Severini**, ILStudio*
11:00	15'	*Q&A session*
11:15	15'	*Networking break*
11:30	15'	**Offshore Wind as a Driver of Economic and Social Growth in the Taranto Area** *Laura **Cimaglia**, Porto di Taranto*
11:45	15'	**Environmental and Social Considerations for Offshore Wind Projects: ACCIONA Energia's Experience in Italy** *Carlo **Moruzzi**, ACCIONA Energia Srl*
12:00	15'	**NEST: Shared Vision and Impact in Energy Transition Innovation** *Michela **Chimienti**, NEST Foundation*
12:15	15'	**Offshore Wind: Research Insights and Challenges from NEST** *Sergio **Camporeale**, Politecnico di Bari; NEST Foundation*
12:30	15'	**The Smart Offshore wind farm** *Francesco **Augenti,** 4d Strategic Systems*
		DTA contribution on Drones, monitoring, and offshore wind: research and studies
12:45	15'	*Q&A session*
13:00	15'	*Wrap up and conclusions*
13:15		*Networking light lunch*
